DETAILED ACTION

1. Claims 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what applicant means by “..cutting to lengthen”. How does one cut to lengthen an article. Cutting and extruded article would shorten the article not lengthen the article. Even if the cutting takes place along the length of the extruded article, it would not get longer. Suitable explanation and correction is required.

2. Claims 2-11 are objected to as being dependent upon a rejected base claim.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Riebel et al.

Riebel et al. teach a method of mixing cellulosic or wood fiber together with a colorant. The mixture is heated to drive off moisture. A plastic resin is added to the mixture. The mixture is extruded and cooled to harden. [Note Column 2, Paragraphs 2 and 5, Column 3, Paragraphs 2 and 4, Column 6, Paragraph 3, Column 9, Paragraph 3, Column 10, Paragraph 2 and Claims 1, 11 and 20]
